

Shubhi Sharma

React Developer | Frontend Engineer

+91 6268392549 | shubhisharma4u@gmail.com | Bengaluru, Karnataka, India
[in LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Professional Summary

Frontend Developer with **3 years of experience** building scalable, responsive, and high-performance web applications using **React.js, Next.js, JavaScript, and TypeScript**. Experienced in developing reusable UI architectures, optimising application performance, and creating intuitive user experiences for enterprise and ed-tech platforms. Strong understanding of frontend engineering principles, state management, API integration, and modern development workflows with a focus on clean, maintainable code.

Technical Skills

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3

Backend: Node.js, Express.js, Java, REST APIs

UI & Styling: Tailwind CSS, Material-UI (MUI), Chakra UI, Styled Components

State Management: Redux Toolkit, Context API

Database: MongoDB, MySQL

Performance Optimization: Code Splitting, Lazy Loading, Memoization, Performance Tuning

Tools & Platforms: Git, GitHub, Postman, VS Code, Chrome DevTools, ESLint, Prettier

Professional Experience

Entrar – Skoodle Learning Pvt. Ltd.

Bengaluru

Software Developer

Aug 2023 – Present

EntrarAcademy – AI Learning Platform

- Developed scalable and responsive user interfaces using **React.js and TypeScript**
- Built reusable component architecture that improved development efficiency and consistency across applications
- Integrated REST APIs and AI-driven services for quiz generation, evaluation, and feedback systems
- Optimized application performance using lazy loading, memoization, and efficient rendering techniques
- Created analytics dashboards and interactive data visualizations for student performance tracking

Entrar Open Learning – LMS Platform

- Developed complex workflows including timetable management, task systems, and learning dashboards
- Implemented real-time features such as notifications, live sessions, and dynamic updates
- Improved responsiveness and accessibility across desktop and mobile devices
- Collaborated closely with backend teams for API integration and feature delivery

Entrar University ERP

- Built scalable admin dashboards and modules for HR, inventory, and academic management systems
- Developed reusable UI components using React and TypeScript to improve maintainability
- Worked on API integrations and data-driven interfaces for enterprise workflows
- Contributed to performance optimization and code quality improvements across projects

EntrarAlumni Platform

- Developed social networking features including posts, messaging, profiles, and engagement modules
- Built event management and job portal interfaces with filtering and search capabilities
- Improved user experience through responsive design and optimized state management

Key Projects

AI Assessment System: Developed a scalable frontend platform for AI-based assessment generation and evaluation workflows with high user engagement and optimized performance.

Reusable Component Library: Created a reusable UI component system that improved consistency and accelerated frontend development across multiple applications.

Real-Time Learning Platform: Implemented interactive and real-time classroom features supporting live sessions, notifications, and collaborative learning experiences.

Education

Masai School <i>Full Stack Web Development</i>	2022 – 2023
○ Intensive full-stack development program with hands-on project experience	
○ Built multiple real-world applications using MERN stack technologies	
Govt. MVM College <i>MSc Chemistry</i>	2019 – 2021
IEHE, Bhopal <i>BSc Chemistry</i>	2016 – 2019

Additional Skills

Soft Skills: Problem Solving, Communication, Team Collaboration, Agile Development

Languages: English, Hindi
